MODEL BUILDING

Team ID	PNT2022TMID51044
Project Name	AI-powered Nutrition Analyzer for Fitness Enthusiasts

Test The Model

Evaluation is a process during the development of the model to check whether the model is the best fit for the given problem and corresponding data.

Load the saved model using load_model.

Taking an image as input and checking the results.

By using the model we are predicting the output for the given input image.

```python
from tensorflow.keras.models import load_model
from keras.preprocessing import image
model=load_model("fruits-360-original-size.h5")
```
